Subject: Leviathan Mine - Request for EPA Sediment Data Collected After 2013

Lynda,

On behalf of Atlantic Richfield, Amec Foster Wheeler is requesting a copy of the stream sediment data that Dr. Black collected at the Leviathan Mine on behalf of U.S. EPA. Dr. Black previously indicated that he collected sediment samples during the bioassessment efforts in September 2014, June 2015, September 2015 and June 2016 as well as water samples for each of these events. As you know we are in the process of preparing the Stream Sediment TDSR, and would like to incorporate it into the evaluation presented in the report.

Please let us know if you have any questions.

Thanks,

Marc
